Objective

"With a background in psychology, I developed strong analytical, problem-solving, and communication skills that have shaped my approach to technology. After discovering my passion for coding, I transitioned into full-stack Java development and have gained proficiency in both front-end and back-end technologies. I am skilled in Java, HTML, CSS, and database management, and I am driven by the challenge of creating efficient and user-centric applications. Eager to continue growing my expertise, I am excited to contribute to innovative solutions in the tech industry."

Experience

- Whitetrack technologies** July 2024 -
Java Full Stack Developer intern at whitetrack Technologies
 - contributed to a positive team environment by collaborating with fellow interns improving communication and teamwork skills.
 - Enhanced problem solving abilities through coding challenges and development tasks. Led a team in.

Education
